Joint Training and Research Programme  
on  
**Lifespan Regulation Mechanisms in Health and  
Disease**

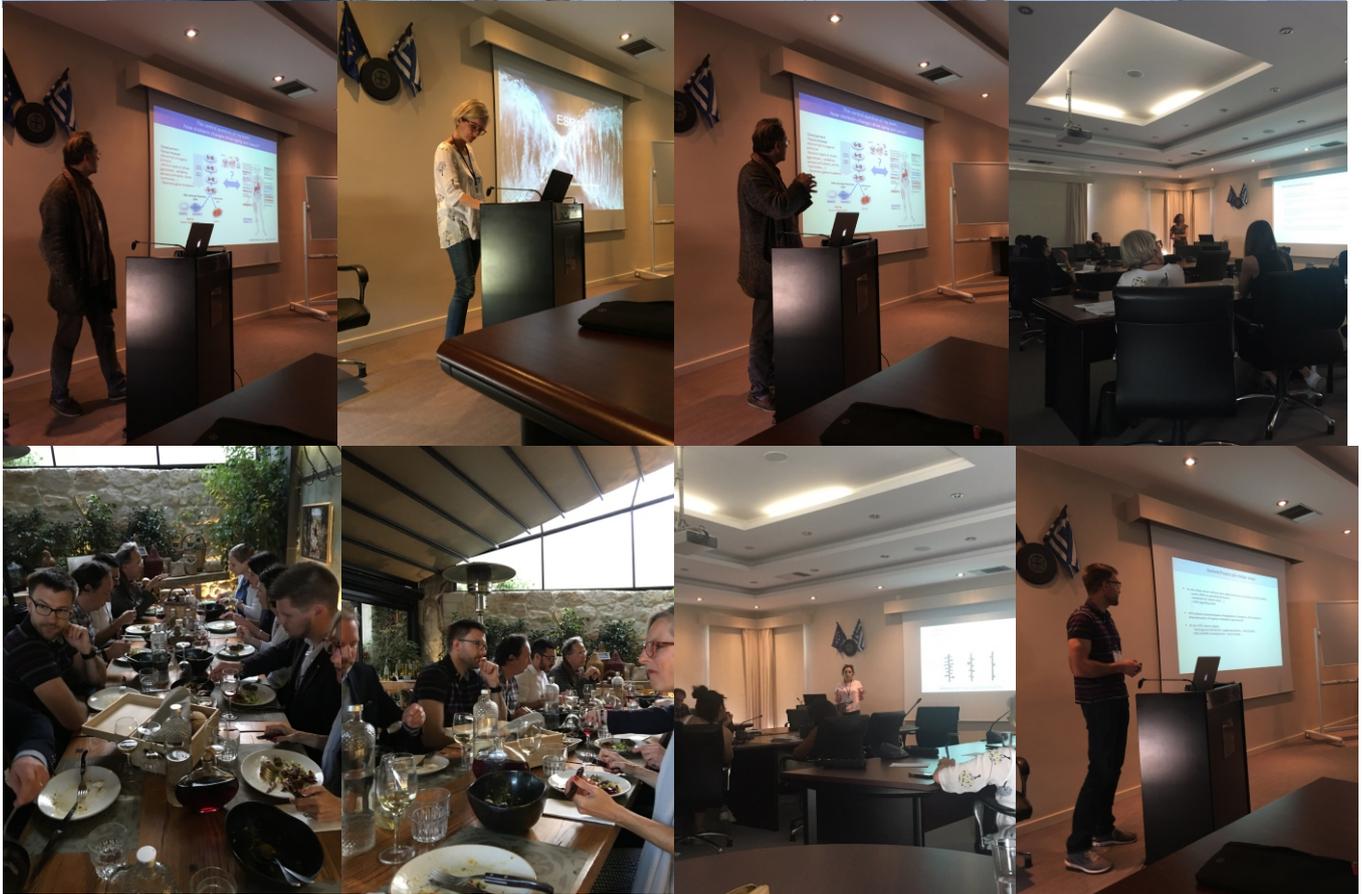

New age-ideas for an age-old problem

Our news:

Hea<sup>th</sup>thage

We started in May 1, 2019!

Photos from the Kick-off meeting

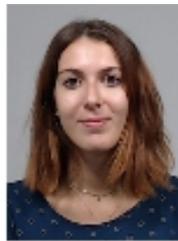

Our news:

# Investing in the training of **youth** 15 bright minds have joined HealthAge!

For more: [www.itn-healthage.gr](http://www.itn-healthage.gr)

**Christina Chalinoglou**  
UCD (J. Behrmann group)  
**ERPC:** "Longevity assurance mechanisms and the DNA damage response"

**Alessia De Masi**  
EPFL (J. Janssens group)  
**ERPC:** "Novel interactions between genes and nutrition in aged"

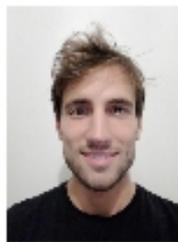

**Laila Gungordu**  
RWTH (J. Italian group)  
**ERPC:** "Identification of biological mechanisms that drive age-related protein toxicity"

**Bilal Tezglari**  
FOCM (N. Tavernarakis group)  
**ERPC:** "Mitophagy in neuronal physiology and neurodegeneration during ageing"

**Louise-Marie Craigie**  
Blechnon (M. Hall group)  
**ERPC:** "The role of arginine metabolism in mTOR signalling during ageing and cancer"

**Marco Raffalli**  
IGCM (J. Cohen group)  
**ERPC:** "Role of telomeres in neuronal ageing"

**Vivian Kalamara**  
FOCM (C. Carls group)  
**ERPC:** "Chronic inflammation and metabolic reprogramming during ageing"

**Yarni Ray**  
TGA (Yves) British group)  
**ERPC:** "The impact of genome instability in cellular senescence and ageing"

**Aiorhi Daskalaki**  
UCL (Dimitris Kletsas group)  
**ERPC:** "Phenotypic analysis of progeroid mice under dietary restriction and pharmacological interventions"

**Emman Rivira**  
GRC (J. Estévez group)  
**ERPC:** "The role of Opa1-dependent mitochondrial outer membrane remodelling in age-related disease"

**Valerina Ramponi**  
IRB (M. Estévez group)  
**ERPC:** "Development of senolytic strategies against age-related disease"

**Parimala Devi**  
Genivis  
**ERPC:** "Development of novel bioinformatic algorithms to integrate multi-dimensional datasets for a systems biological view on ageing"

**Rajat Sacha**  
LITMop  
**ERPC:** "Development of microfluidic DRUG screen assays for animal models of ageing"

**Dionysia Sika**  
IRB/Genivis  
**ERPC:** "Signalling and exosome analysis for biomarker discovery and compound evaluation during ageing"

**David Liscova**  
Hep/Estévez  
**ERPC:** "Evaluation of nutraceuticals against age-related disease"

*A live community dedicated to  
excellence in research and training*

## Stay updated!

<https://itn-healthage.gr/index.php/news>

### The HealthAge project management course | June 18, 2020

The HealthAge project management course will take place via teleconference on June 18, 2020 at 10:00-13:00 (CET, Berlin) time

### The HealthAge 1st annual meeting | July 7, 2020

The HealthAge 1st annual meeting will take place via teleconference on July 7, 2020

### Researcher Positions are available!

Marie Skłodowska-Curie Early Stage Researchers for the program "Healthage: Lifespan Regulation Mechanisms in Health and Disease"

### Kick-off meeting | May 15-16, 2019

The Healthage ITN Program starts on May 1, 2019! Our "Kick-off meeting" will be held in Heraklion, Crete at the FORTH premises on May 15-16, 2019.
